

Open data in the Long Term Ecological Research Network

<http://lter.kbs.msu.edu>

Sven Bohm

ILTER Sites in the Network:

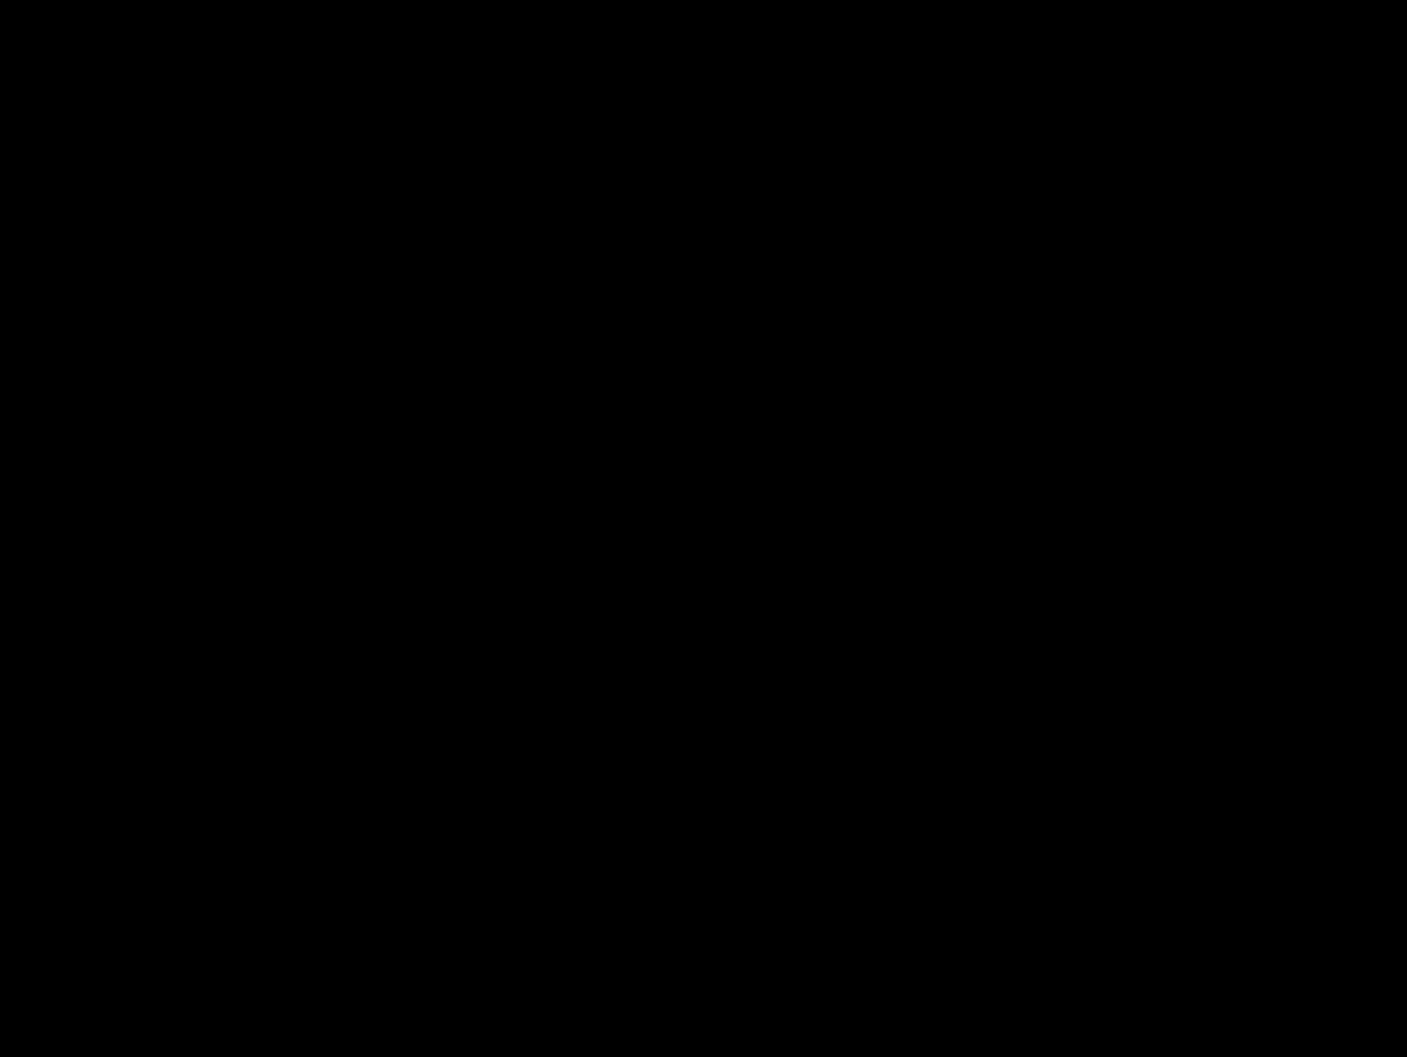

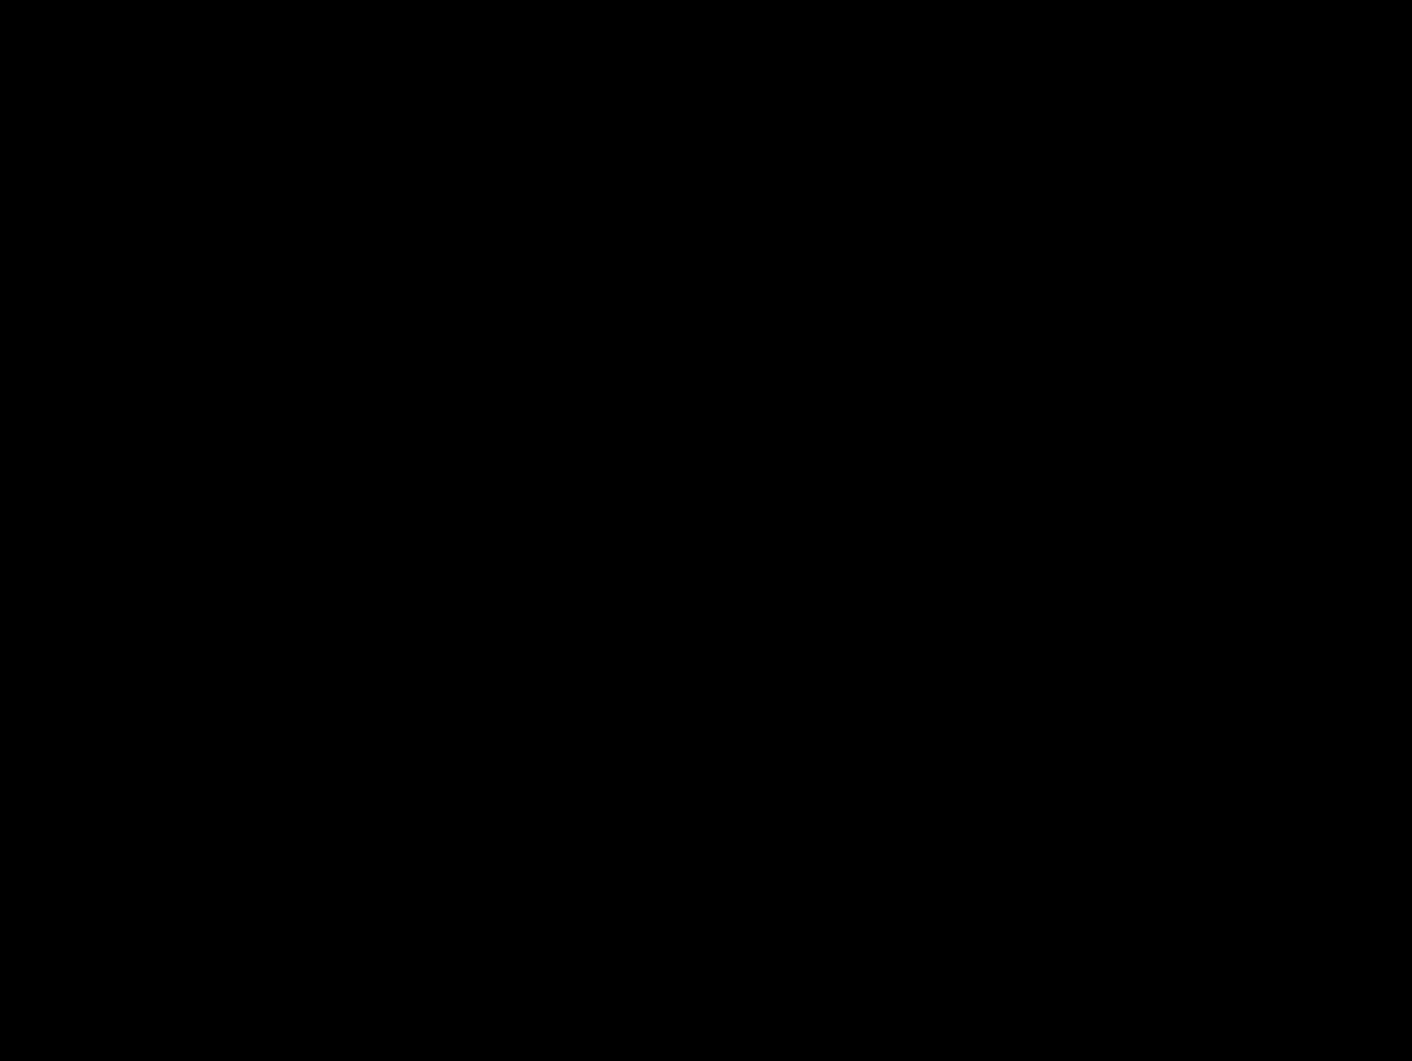

ILTER Sites in the Network:

To what extent can we substitute biology for chemistry in agricultural production?

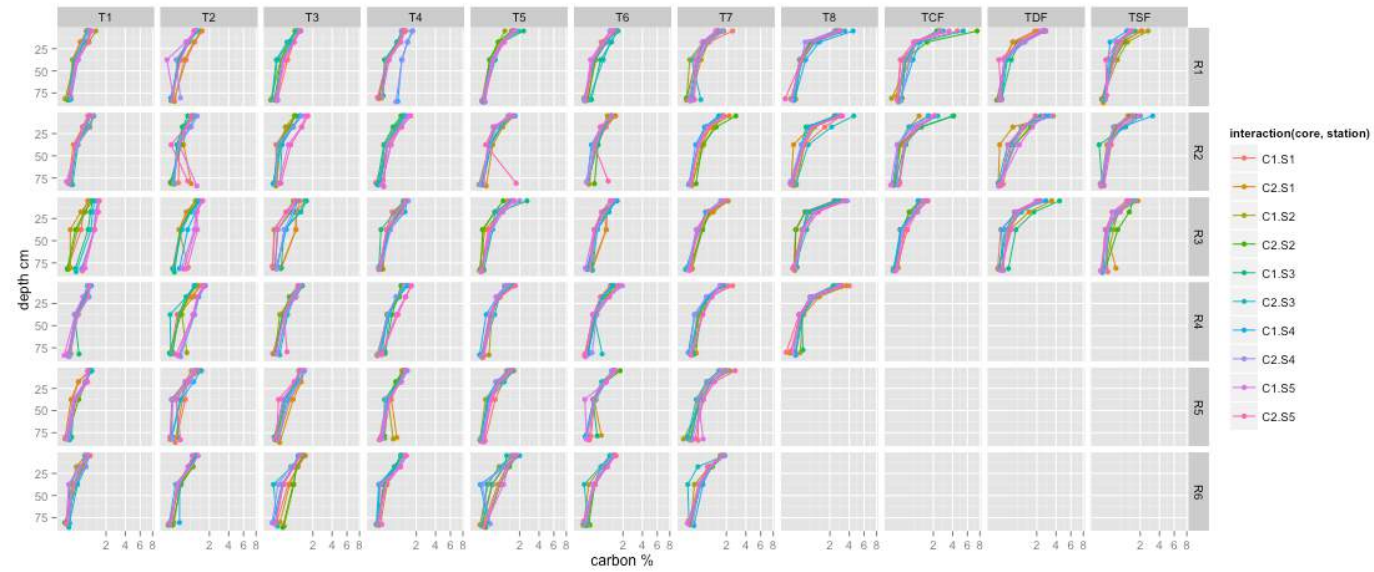

Characteristics of Ecological Data

- limited opportunities for commercialization
- generally small

```
-rw-r--r-- 1 bohms staff 282K Oct 16 12:11 2013-deepcore_samples-with-c-n.csv
```

2000 hours of work

History

Benefits

- better re-use within the group

Benefits

- better re-use within the group
- metadata improvement

Benefits

- better re-use within the group
- metadata improvement
- more comparable datasets

Benefits

- better re-use within the group
- metadata improvement
- more comparable datasets
- publications without sampling
